

COMMUNITY CLASSES IN RENEWABLE ENERGY

GREASEL CONVERSION CLINIC

CHARLES ANDERSON

Monday, October 31 – Saturday, November 5, 8am-5pm

Confirmation & 50% Deposit due Friday, September 30 – Limit 5 Cars

Get your diesel vehicle converted to run on Straight Vegetable Oil (SVO) during this week-long Conversion Clinic with one of the top SVO converters in the country. Instead of the fuel pump, visit the waste oil bins of Santa Fe restaurants for fuel. We have five slots available and need confirmation on or before September 30.

The cost for a conversion kit ranges from \$600-\$1900, depending on the make of the vehicle. Installation cost is an additional \$1200. Both of these fees are paid directly to Greasel. Visit www.greasel.com for more information and call the EcoVersity office to sign up.

The Permaculture Credit Union offers financing options towards vehicles and conversions, including a Fall Permaculture Special. For more information, call PCU at 505-954-3479, or visit www.pcuonline.org.

HANDS-ON AUTOMOBILE VEGETABLE OIL CONVERSION

CHARLES ANDERSON

Friday, October 28, 6-8pm & Saturday, October 29, 8am-5pm

Tuition: \$145, Registration due October 15th

Learn about alternatives to petroleum dependency with Charles Anderson from Greasel Conversions. In this two-day workshop Charles discusses a variety of alternative fuels, including Ethanol, Biodiesel, Hydrogen and SVO. Learn how these fuels run in automobiles. Participants convert an automobile to run on Straight Vegetable Oil (SVO), a waste product easily attained from local restaurants. Tour the grease pits of local restaurants and learn how to obtain fuel. Ask questions, gain know-how and even sign up to have your car converted during the week-long "Conversion Clinic" following the weekend course.

Charles Anderson is the owner of Greasel Conversions, one of America's foremost alternative fuel sources, located in the Ozark Mountains of Missouri. There, he installs SVO Greasel kits and promotes the use of alternative fuels. Learn more about Charles and Greasel at www.greasel.com.
